Mystery of Corn

Subscribe to our new Mystery of Corn Readers

Kansas Corn STEM is excited to offer the Mystery of Corn Readers. Four times during the school year, educators who subscribe can receive a reader for each student to investigate a mystery about corn. These readers are excellent to use along with other Kansas Corn STEM lessons or as a stand-alone piece. Each edition will have three versions: K-5, 6-8 and 9-12. Spanish versions are also available.

Mystery of Corn subscriptions are free to Kansas educators. Each set of readers will come with a teacher guide providing suggestions on how to use the readers in the classroom. The first issue will be mailed out in September. Teachers must subscribe by August 9th to guarantee copies of the September issues. To learn more and to subscribe visit <https://kscorn.com/reader/>
